**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Conditions good, but significant wind chill at height. Inversion at mid to higher levels bringing limited confidence in the temperature detail above.

Forecast for Monday 27 Feb 2023
Weather: Vast majority enjoying another dry and sunny day with light winds. However turning somewhat cloudier across the far north and east later in the day to bring the chance of a few isolated and light showers with snow level 500m.

Maximum wind: East 10mph or less

Chance of cloud-free hill tops above 800m: 90% plus by day

Low Cloud and visibility: Excellent or very good, becoming very poor within cloud, chiefly in far north and east during the evening

Temperature: **Glens:** Minus 3 Celsius recovering 8 Celsius for the afternoon
At 800m: Ranging from Minus 5 to Plus 3 Celsius dependent on the height of the inversion
Freezing level: Generally around 500m but with an inversion above
